Commercial Offer

Our company is the biggest producer of wheat flour in Republic of Moldova, as well as the biggest exporter during past 3 years. All producing facilities are certified by ISO:22000, which proves our intention to be the best player in flour-milling branch.

Since 2018 after expansion of producing facility, we produce 170 metric tons of wheat flour daily. We export more than half of this volume to other countries. Taking into attention different demand to the flour quality, we have achieved the highest level of flexibility in quality parameters, improving it day by day for our clients.
